PROFILE

Senior QA Engineer with 9 years of experience building test automation frameworks for enterprise security platforms. Expertise in multi-cloud security testing across AWS, Azure, and GCP, with deep knowledge of L3-L7 network protocols. Currently pursuing an M.Tech in AI/ML at BITS Pilani to advance ML-driven security automation and threat detection.

CORE SKILLS

AUTOMATION

Python, Robot Framework, Selenium, Behave (BDD), PyTest

CLOUD & DEVOPS

AWS, Azure, GCP, Docker, Kubernetes, Jenkins, GitHub Actions

SECURITY & NETWORKING

TCP/IP, HTTP/HTTPS, HTTP/2, TLS/SSL, Firewalls, IDS/IPS, L3-L7

TOOLS & TESTING

Git, JIRA, Postman, Linux, LeakSanitizer, REST APIs, CI/CD, Regression, Performance

PROFESSIONAL EXPERIENCE

Software QA Engineer

Cisco Systems India · Bengaluru

JUN 2022 - PRESENT

- Designed and executed **500+ functional, integration, and regression test scenarios** for cloud firewall features across AWS, Azure, and GCP, validating consistent policy behavior across environments.
- Built an end-to-end Python and Robot Framework solution, achieving **85% automation coverage** for security policies.
- Implemented Behave BDD suites for threat-detection workflows, improving readability for cross-functional teams.
- Validated **L3-L7 firewall and IDS/IPS functionality** across protocols, traffic patterns, and rule configurations, identifying product defects and edge cases before release.
- Containerized test infrastructure with Docker and Kubernetes, reducing execution time by **40%** and improving deployment efficiency.

PROFESSIONAL EXPERIENCE

QA Engineer 2

JAN 2020 - JUN 2022

Akamai Technologies · Bengaluru

- Developed Python automation for HTTP, HTTPS, and HTTP/2 protocol compliance, ensuring adherence to **15+ RFC standards**.
- Built a high-performance Origin testing tool handling **300,000+ concurrent requests** with 99.9% reliability.
- Identified critical memory leaks with LeakSanitizer, preventing three potential production security vulnerabilities.
- Automated TLS compliance validation across certificate configurations and cipher suites.

System Software Engineer

AUG 2017 - JAN 2020

Micro Focus (HP) · Bengaluru

- Reduced regression testing time by **28%** through Python and Selenium automation optimization.
- Developed and maintained **200+ automated test cases** for enterprise backup and recovery solutions.
- Collaborated with development teams to introduce shift-left testing, reducing bug escape rate by **15%**.

SELECTED PROJECT

KanjiRaja JAPANESE LEARNING PLATFORM

Independently designed, developed, and deployed a full-stack application for learning Hiragana, Katakana, and Kanji through interactive quizzes, progress tracking, and spaced repetition.

EDUCATION

M.Tech, AI/ML

BITS Pilani · Hyderabad

Ongoing · Expected Sep 2026

B.E., Computer Science

UVCE Bangalore

Jul 2017

CERTIFICATIONS

- Intro to Cybersecurity - Cisco
- AWS Cloud Practitioner
- GitHub Actions CI/CD
